

Automation

Industrial Automation

Jaymor Industries are specialists in industrial automation solutions. **Jaymor** can draw on many years of experience in this field to create systems tailor made to the customers requirements for new installations, system upgrades or 'one off' specialised projects.

Jaymor use only quality, reliable industrial products and software from manufacturers such as Allen Bradley, Schneider, Modicon, Sick, Banner, Omron, Telemecanique and many more.

Jaymor will select the right product for your needs and can create systems using equipment specified by customers to provide a site standard.

Areas of expertise include closed loop hydraulics, hydraulic motion control, computers, electronics, AC motor speed control, SCADA systems, scanning, test and measurement.

System upgrades give more reliable, flexible and easier to maintain controls that when correctly carried out can help to maximise productivity and minimise downtime.

Jaymor can take care of all aspects of project management of any scale. We can also provide quality consultancy services if you need to know how to get your project off to the right start.

Contact **Jaymor Industries** to find out how we can use our **Industrial Automation** skills to assist you.
