

Setworks

MultiMiser

The **Jaymor MultiMiser** provides a powerful setworks system suitable for multiple axis networks.

The **MultiMiser** features a membrane style operator panel that provides excellent longevity in the tough sawmill environment.

The **MultiMiser** adds to its versatility with configurable pushbutton assignments and **Jaymor's** great combo mode.

All size buttons feature an individual display, can feature saw assignment indication, and each axis can have continuous live display of the current machine position.

The **MultiMiser** can store 8 sets of 24 individual sizes plus 8 sets of 12 4 axis combinations giving a massive 576 sizes in total.

The **MultiMiser** is extremely versatile and is ideal for multiple axis machines including:

- Multiple axis Resaws
- Multiple axis Edgers
- Edgers and Resaws with Pickers
- Machines that require extra custom position control on infeed or outfeed areas
- Multiple axis Horizontals

The **MultiMiser** can control solenoid and proportional hydraulic valves, servovalves, vector drives and even proportional air control.

Call **Jaymor** to find out more about how a **MultiMiser** could suit your application.
